

BASIC CLASSROOM WITH PROJECTOR

Computer, Projector w/ variable output, 40 Watt Stereo Audio Amplifier

**SYSTEMS
SOLUTIONS** AN-2047

Description:

This classroom is equipped with a computer, projector and overhead speakers. The computer is connected to a jack plate at the front of the room. Audio and video from the audio/video input plate is connected to the projector using standard audio wiring and monitor cable. The projector is used to control the audio level to the speakers. The projector must be equipped with a variable level audio output. Each output channel of the power amplifier powers one $8\ \Omega$ speaker. All wall controls and panels are offered in RDL standard white/gray or in stainless steel with custom labeling available.
